The Software to achieve Better Control and offer Better Service at your College

Rovan Software Solutions (P) Limited is a leading software company serving colleges and schools since 2002. We offer ROVAN IMS, the ERP to manage your college. We help you to use the resources better and serve the students better.

ROVAN IMS is the ERP that helps you to administer almost all the activities of the institution. It is a multi user system that can be deployed as an internet / intranet application.

BENEFITS

Integrates all the activities of the institution

Better hostel management

Streamlines processes

Bus wise / Route wise profitability

Improves efficiency

Biometrics attendance control for staff

Shows the pending fees instantly

Effective control of assets

Prints TC / Other certificates

Better stores / canteen / mess management

Preventive action in student attendance

Easy integration with accounts

Quick and easy exam result analysis

Student login for each student

Search library books from anywhere

SMS / E-mail / Barcode integration

BETTER CONTROL BETTER SERVICE

The Principal / HOD can view complete information about the student in a single screen. It will show the personal details, fees particulars, attendance details, mark details, library activities, hostel activities and transport details.

This empowers the Principal / HOD to face the parents with accurate data and have a worthy discussion about the future of the student.

The same data can be shared with the students / parents through Student Login module. This ensures healthy flow of information and acts as a controlling tool of student activities.
