DEPARTMENT OF ENGLISH
PROGRAMME SPECIFIC OUTCOME

BACHELOR OF ENGLISH

On the successful completion of B.A English programme, the students will

- PSO1: Have a strong foundation in English language, literature and literary criticism.
- PSO2: Gain English language skills through literature.
- PSO3: Be familiar with the great works of art and authors.
- PSO4: Acquire knowledge about various literary genres.
- PSO5: Get critical insight to appreciate the literary works.
- PSO6: Acquire proficiency in the core skills of LSRW.
- PSO7: Be enriched with various skills like employability skills, computer skills, soft skills, interpersonal skills etc.
- PSO8: Read critically and analytically the works of literature produced in many different cultural and historical periods.
- PSO9: Adopt literary, cultural and social environments to communicate effectively in business and social environments.

MAST **ENGLISH**

On the successful completion of MA English programme, the students will

- PSO1: Have an in-depth study of English language and literature.
- PSO2: Acquire advanced knowledge in various literary theories.
- PSO3: Analyse the works of art critically with literary sensibility.
- PSO4: Obtain linguistic abilities to master English language and literature.
- PSO5: Acquire compositional as well as communicative skills in English.
- PSO6: Learn interpersonal skills which give job opportunities.
- PSO7: Get through eligibility tests such as NET, SET, JRF, TRB etc.
- PSO8: Be trained to use the tools of learning independently.
- PSO9: Examine various literary techniques that writers use in constructing their texts and demonstrate an understanding of these techniques.
- PSO10: Demonstrate, through discussion and writing, an understanding of significant cultural and societal issues presented in literature.

DEPARTMENT OF ENGLISH
PROGRAMME SPECIFIC OUTCOME

MASTER OF PHILOSOPHY IN ENGLISH

On the successful completion of M.Phil. English programme, the students will

- PSO1: Employ a variety of methods to evaluate, analyze, and understand literary and non-literary texts.
- PSO2: Apply critical and technical vocabulary to describe, analyze and formulate an argument about literary and other texts.
- PSO3: Identify and evaluate appropriate research sources, incorporating the sources into documented academic writing and formulate original arguments in response to those sources.
- PSO4: Appreciate literature as a source of practical wisdom, aesthetic pleasure, and acquire knowledge of the diversity of human existence.
- PSO5: Gain the critical insight.
- PSO6: Attain the ability of critical inquiry.
- PSO7: Get acquainted with the process of research.
- PSO8: Have the acumen over the different fields of literary and linguistic research.
- PSO9: Be transformed into research scholars.

DEPARTMENT OF BUSINESS ADMINISTRATION
PROGRAMME SPECIFIC OUTCOME
BACHELOR OF BUSINESS ADMINISTRATION
On successful completion of BBA programme, the graduates will
PSO1 Demonstrate conceptual understanding of the basic Principles of Management.
PSO2 Utilize the progression of scientific theories in managerial decision-making of the business.
PSO3 Apply the basic theoretical framework of the concepts of social management.
PSO4 Facilitate with the current and business evolving business environment in Asia.

DEPARTMENT OF ENVIRONMENTAL SCIENCE
PROGRAMME SPECIFIC OUTCOMES
On successful completion of this B.Sc programme, graduates will:
PSO1: Gain basic knowledge of environmental and pollution issues, understand environmental components in water, air and soil to understand the environmental impact of human activities.
PSO2: Gain awareness of environmental and development related issues.
PSO3: Develop and improve knowledge in making decisions on environmental issues and the development of conservation.
PSO4: Develop skills in planning, writing, communication, report writing and laboratory work under the supervision of faculty and staff.
PSO5: Gain an understanding regarding the industries related and services for the environment. It will help them to work in the industry and also to understand the environmental issues and the development of conservation.
PSO6: Gain an understanding regarding the environmental issues and the development of conservation.
PSO7: Gain an understanding regarding the environmental issues and the development of conservation.
PSO8: Gain an understanding regarding the environmental issues and the development of conservation.
PSO9: Gain an understanding regarding the environmental issues and the development of conservation.

NOTICE
The Department of Chemistry is pleased to announce the following information regarding the admission of students to the B.Sc. Chemistry program for the year 2023-2024. The details are as follows:
1. Eligibility: Candidates must have completed the 10th grade with a minimum of 60% marks in the Science stream.
2. Application: Candidates should apply to the Department of Chemistry, Faculty of Science, [University Name], [Address].
3. Documents: Candidates must submit the following documents:
- Original 10th grade mark sheet.
- Original 10th grade certificate.
- Recent passport-sized photograph (2x2 cm).
- Two copies of the application form.
4. Fee: The application fee is Rs. 500/-.
5. Deadline: The last date for application is [Date].
6. Selection: Candidates will be selected based on their performance in the entrance examination.
7. Contact: For further information, contact the Department of Chemistry at [Phone Number].
8. Website: Visit the department website at [Website URL].
9. Enquiries: For any queries, please contact the Department of Chemistry at [Phone Number].
10. Date: [Date].

DEPARTMENT OF COMPUTER APPLICATIONS

PROGRAMME SPECIFIC OUTCOME

BACHELOR OF COMPUTER APPLICATIONS

On the successful completion of B.C.A. programme, the students will

PSO1. Understand, analyse and design computer programs, the students will algorithms, well design and make computer programs to the areas related to conceptual and financial procedures to analyse and solve real world problems within their work domain.

PSO2. Apply standard software engineering process and strategies to software project development using open source programming environments to deliver a quality product for business success.

PSO3. Analyse and apply latest technologies in software computer applications.

PSO4. Develop practical skills to solve problems in the areas of Articulate the relevance of latest computing technologies to industry, society and business.

PSO5. Get acquainted with latest trends in technological development and thereby innovate new ideas and solutions in solving problems.

PSO6. Demonstrate advanced skills in the effective analysis design and evaluation of system utilizing contemporary correct technology.

MASTER OF COMPUTER APPLICATIONS

On the successful completion of MCA programme, the students will

PSO1. Acquire knowledge of basic mathematics, accounting, computing fundamentals, programming concepts and other core computer subjects.

PSO2. Map real life scenarios to various theoretical and practical subjects.

PSO3. Use modern computing tools and techniques with confidence in multidisciplinary work, positive attitude or as individual.

PSO4. Analyse customer requirements, create high level design, implement and document robust and reliable software systems.

PSO5. Identify, critically analyse, formulate and develop computer applications.

PSO6. Know the importance of goal setting and recognize the need for life-long learning.

HARDWORK IS THE MOTHER OF SUCCESS.

PRACTICE MAKES A MAN PERFECT.

PROGRAMME SPECIFIC OUTCOME

BACHELOR OF ENGLISH

On the successful completion of B.A English programme, the students will

- PSO1: Have a strong foundation in English language, literature and literary criticism.
- PSO2: Gain English language skills through literature.
- PSO3: Be familiar with the great works of art and authors.
- PSO4: Acquire knowledge about various literary genres.
- PSO5: Get critical insight to appreciate the literary works.
- PSO6: Acquire proficiency in the core skills of LSRW.
- PSO7: Be enriched with various skills like employability skills, computer skills, soft skills, interpersonal skills etc.
- PSO8: Read critically and analytically the works of literature produced in many different cultures and historical periods.
- PSO9: Adopt literary, critical, and oral skills to communicate effectively in business and social environments.

DEPARTMENT OF INFORMATION TECHNOLOGY
PROGRAMME SPECIFIC OUTCOME
BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY
On the successful completion of B.Sc. Information Technology programme, the students will:
PSO1. Use technical skills in the development and application of problem-solving skills.
PSO2. Acquire knowledge of basic topics in various aspects of IT and its other interdisciplinary interfaces.
PSO3. Be involved in new areas of Information Technology to analyse, design and implement data and technical concepts to create novel products.
PSO4. Be exposed to the professional careers in fields related to human-computer interaction.
PSO5. Be aware of the need for life-long learning in the broadest context of technological change.

DEPARTMENT OF INFORMATION TECHNOLOGY

PROGRAMME SPECIFIC OUTCOME

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

On the successful completion of B.Sc. Information Technology programme, the students will

- PSO1: Use technical skills in the development and application of problem-solving skills.
- PSO2: Acquire knowledge of basic inputs in various aspects of IT and its other interdisciplinary interfaces.
- PSO3: Be trained in core areas of Information Technology to analyze, design and synthesize data and technical concepts to create novel products.
- PSO4: Be exposed to the professional careers in fields related to human-computer interaction.
- PSO5: Be aware of the need for life-long learning in the broadest context of technological change.

DEPARTMENT OF MATHEMATICS (SF)

PROGRAMME SPECIFIC OUTCOME

BACHELOR OF SCIENCE IN MATHEMATICS

- On the successful completion of B.Sc. Mathematics programme, the students will
- PSO1: Understand the advanced concepts of Classical Algebra, Differential and Integral Calculus and acquire skills of applications of Differential and Integral calculus.
 - PSO2: Understand the basic concepts of Three Dimensional Geometry and acquire the skills of applying them.
 - PSO3: Study the basic Principles of Abstract Mathematics and determine the solutions of Differential Equations and their applications.
 - PSO4: Find approximate solutions to algebraic and transcendental equations and acquire the knowledge of Transformation Techniques and solve simultaneous equations arising out of real life situations using LPP techniques.
 - PSO5: Learn the concepts of Modern Algebra and analyse the properties of Real and Complex numbers.
 - PSO6: Study various statistical models and the algebra of Matrices and apply them to Vector spaces.
 - PSO7: Acquire the knowledge on Numbers, in particular, Prime Numbers.
 - PSO8: Get deep knowledge about Statics and Dynamic, thereby know where they are applied to reach optimal solution to complex decision making problems using OR concepts.

DEPARTMENT OF MICROBIOLOGY

PROGRAMME SPECIFIC OUTCOME
BACHELOR OF MICROBIOLOGY

- On successful completion of B.Sc. Microbiology Programme, the students will
- PSO1: Obtain basic knowledge in microbiological, medical, immunological and biochemical techniques in order to continue their career in higher studies.
 - PSO2: Perform and communicate the experimental results effectively.
 - PSO3: Evaluate and transmit knowledge in the field of microbiology.
 - PSO4: Get opportunities in the variety of fields including microbial ecology, cell and molecular biology, medical diagnostic microbiology.

MASTER OF MICROBIOLOGY

- On successful completion of M.Sc. Microbiology Programme, the students will
- PSO1: Acquire knowledge and gain exposure to upcoming areas including genetic engineering, bioinformatics, medical and immunological microbiology, food and industrial microbiology.
 - PSO2: Be facilitated with the latest technological information pertaining to the emerge of molecular biology, infectious disease, laboratory safety and self-preventive measures from hazardous agents.
 - PSO3: Acquire the practical skills necessary for small and medium scale production of microbial products in the laboratory.
 - PSO4: Gain in-depth knowledge and inculcate research skills for professional careers in microbiology.
 - PSO5: To enhance the intellectual foundation and preparation of the students to face life.

MASTER OF PHILOSOPHY IN MICROBIOLOGY

- On successful completion of M.Phil. Microbiology Programme, the students will
- PSO1: Gain exposure in upcoming areas including recombinant DNA technology, bioinformatics, biostatistics and industrial microbiology.
 - PSO2: Learn the mechanics of research and obtain data.
 - PSO3: Acquire additional learning experiences by means of structured project and gain exposure to a particular area of microbiology.
 - PSO4: Take part in the research project and work towards publications and patents.
 - PSO5: Gain in-depth knowledge and inculcate research skills for professional careers in microbiology.
