## VHNSN COLLEGE

Virudhunagar Hindu Nadars' Senthikumara Nadar College has attained an eminent status with 20 UG, 15 PG and 13 M.Phil., and 10 Ph.D. Programme. The institution also offers UGC Sponsored B.Voc. Course on Environmental Assessment and Remediation. The UGC granted autonomous status to the institution in 2012. The college is accredited with A Grade by NAAC in the fourth cycle of accreditation. The institution has secured 51<sup>st</sup> rank in National Institutional Ranking Framework by the Ministry of Human Resource Development, New Delhi. Today, after 71 years of its inception, VHNSN College has grown from strength to strength, scaling new heights and crossing many a milestone on the academic road. Even a casual glance at the campus of this college will speak volumes for its multidimensional development. The sprawling campus dotted with lush green trees, the imposing and massive buildings, the sophisticated infrastructure with the state of art technology, the computerized and well - stocked library, the committed and competent team of staff and the enlightened management has collectively transformed this great institution into a towering colossus, standing astride and the pinnacle of academic excellence.

## INTERNAL QUALITY ASSURANCE CELL

This Cell was established on the basis of the guidelines set forth by National Assessment and Accreditation Council (NAAC). It works towards improving the maintaining the quality of education, identifying and suggesting new ways of using teaching aids, developing suitable infrastructure and offering suggestions for new self – financing courses. The IQAC has been diligently involved in helping the Management, Principal and other Committees by offering valuable suggestions and measures in order to have consistency in maintaining the quality of education. Thus, IQAC is an

effective and efficient internal co-ordinating and monitoring mechanism. The primary aim of the IQAC is to develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution.

## ABOUT THE WORKSHOP

Innovation is the key component for the sustainable economic progress of our nation that benefits industries, retailers, consumers, and the economy as a whole. Innovation is not just an idea; it deals with execution through the effective creation of linkages between inventor/researcher, industrialist, and consumer. Each component of the entire value chain has a unique feature, which need a common and secure platform to work together for transforming the laboratory research into commercial product and sustain them in the market place. As the part of our nation building, the creation of adequate knowledge in Intellectual Property Rights and Technology Licensing (IPR & TL) among the various components of our society such as students, scholars, faculties, industrialists and public has become very essential and also an integral part of academic and industrial practices.

## OBJECTIVES OF THE WORKSHOP

- To create the fundamental knowledge on effective management of intellectual property rights, which includes copyright, database right, trademarks, design, and patents.
- To help engineers, scientists, industrialists, authors, and other creators to understand the broad principles and strategies involved in establishing IPR and TL.
- To inculcate the significance of transferring the laboratories research into commercial products through effective technology licensing.
