## **Theme**

A Model Display is a wonderful tool that engages students in learning new facts. It develops in them the curiosity to learn more. It provides a platform for the students to use their knowledge and bring the best invention from their brains. It also allows students to work together in groups and learn from each other. They share their ideas and collectively galvanize those ideas to bring something innovative into implementation. This further allows the students to develop their social and moral skills and make them a better team player. Students apply their classroom knowledge in these exhibitions and develop the taste for learning by doing. It shifts them from theoretical study to practical implementation and they avail the opportunity to apply their ideas in unique ways. Once transformed their idea into a project, they showcase it in front of others and get acknowledged which further boosts their confidence. Therefore, these exhibitions make students more confident and creative.

## **Programme Summary**

The application of classroom learning can be best done through the exhibition. The students apply their classroom and bookish knowledge in these exhibitions and develop taste for learning by doing. Students avail the opportunity of practical learning and experiencing everything first hand during these exhibitions. The students get an opportunity to showcase their talent in front of others and feel proud of their achievements. They apply their ideas and learning in their unique ways. The students speak about their projects in front of everyone and develop public speaking skills. It outshines their personality.

12.	Programme Summary:	<p>Peer teaching learning method is a method that facilitates students with different abilities and is considered one of the innovative teaching learning strategies. Students feel more comfortable and open when interacting with a peer tutor. In this respect, the Department of Commerce (SF) has organized Peer Tutoring Session and Ms. R. Saishruthi of III B.Com (SF) had delivered lecture series on “Business Communication” from 3<sup>rd</sup> August, 2022 to 05<sup>th</sup> August 2022. She presented her lecture in form of Power Point Presentation and explained the importance and objectives of business communication, types and methods of communication and the barriers of communication.</p> <p>The students revealed their feedback after attending the session:</p>

- The session provided more comfortable learning environment.
- It gave more positive attitude towards learning and to develop self-confidence.
- It felt free to ask questions to the peer tutor.
- It gave more confidence to express thoughts and also motivated some to become a peer tutor in the upcoming sessions.
- It gave a clear idea about the subject.
- The peer teacher expressed her view after the session:
- It gave a good experience to know about the importance of teacher in a classroom.
- The session offered more confidence to face the audience.
- It also offered a good opportunity to learn deeply about communication.
- It built a good relationship among the peer students.

**Teacher's Observation:**

The instructor used the first language (L1) in the classroom appropriately and effectively. It gives different experience to both the student teacher and the peer students. Peer tutor and peer students share a similar discourse allowing for a greater understanding. Peer teacher reinforce her own learning by instructing others. The class was clearly very well-organized with a clear goal which was successfully achieved. The purpose of introducing these new teaching strategies and methods is to improve academic outcomes and address real problems to promote equitable learning.

The students reveal their feedback after attending the session:

- It provided more comfortable learning environment.
- It gave more positive attitude towards learning and to develop self-confidence.
- The students felt that they were free to ask questions to the peer tutor.
- The session gave more confidence to express thoughts and also motivated some to become a peer tutor in the upcoming sessions.
- It gave a clear idea about the subject.

The peer teacher expresses her feelings after the session:

- It gives a good experience to know about the importance of teacher in a classroom.
- The session offers more confidence to face the audience.
- It offers a good opportunity to learn deeply about accounts.
- It builds a good relationship among the peer students.

The instructor used the first language (L1) in the classroom appropriately and effectively. It gives different experience to both the student teacher and the peer students. Peer tutor and peer students share a similar discourse, allowing for greater understanding. The class was clearly very well-organized with a clear goal which was successfully achieved. The purpose of introducing these new teaching strategies and methods is to improve academic outcomes and address real problems to promote equitable learning.
