13.	Programme Summary: Everyone has to obey the laws of the country, otherwise the society cannot exist. Even in our body limbs obey the commands of the brains unless they are diseased. In this way, an interaction was carried out with the students about why parents are important in our life? And why you should respect them and their decisions in life?. Parents guidance is important for our adolescence. Because teenage activities play a big role in the direction of our life and career. Students do lots of mistake in this age. So I advised everyone of the students to discuss their needs and wants to talk with their parents. Their blessings and guidance in our teenage helped us to choose good friends, the right career and happiest livings.
